# PROBLEM STATEMENT

Students often struggle to present their academic achievements, skills, and projects in a structured and professional manner. Traditional resumes fail to capture creativity, practical skills, and hands-on experiences, making it difficult for students to stand out in academic or career opportunities. There is a need for a digital portfolio solution that allows students to effectively showcase their competencies, projects

# PROJECT OVERVIEW

By developing this portfolio system, students will have a personalized digital identity that goes beyond a traditional CV, enhancing their chances of securing opportunities in competitive environments. It will also provide academic institutions and recruiters with a reliable and holistic view of a student's potential.
